

## INSTRUCTIONS FOR THE RAPID FOCUSING LEVER-E

The Rapid Focusing Lever-E is a very important and valuable accessory in the ETR System of Photography.

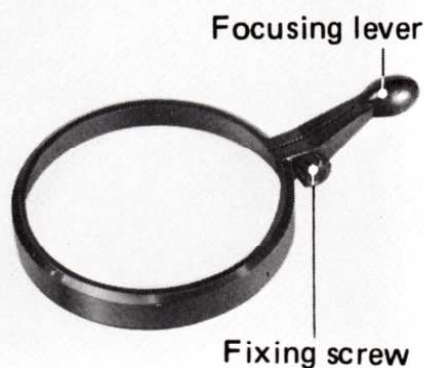

When placed over the focusing ring of the Zenzanon-E lens attached to the Zenza Bronica ETR, it permits faster and smoother focusing for keeping up with fast-breaking actions.

### How to Use

Loosen the fixing screw and place the accessory over the focusing ring, with the focusing lever oriented as required. Then, tighten the fixing screw securely.

The Rapid focusing Lever-E can be used on the focusing rings of the Zenzanon-E 40mm, 50mm, 75mm, 150mm and 250mm lenses.

### Nomenclature

### CAUTION:

Wipe lightly with a silicon cloth or a soft well-washed cotton cloth, when dirty. Do not use alcohol, thinner or other solvents.
