

Grids for 6x6 Format

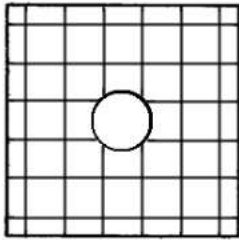

6x6 screens are available with either no grid, or a scribed grid in a number of possible patterns.

Grids 6601 and 6604 are both full checkerboards with lines spaced 3/8" (9.5mm) apart.

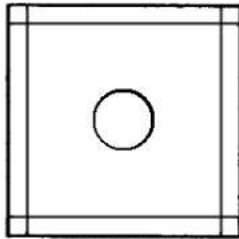

Multiple grids can be combined on a single screen, and custom grid patterns are available.

NOTE: Patterns 6602 and 6605 are not recommended for the Praktisix and Pentacon Six, because the outer line of the grid is almost at the edge of the screen.

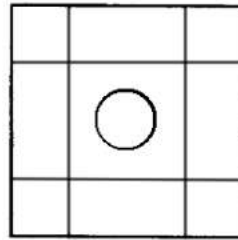

These patterns can also be applied to 4x4, 645 and 6x7 format screens.

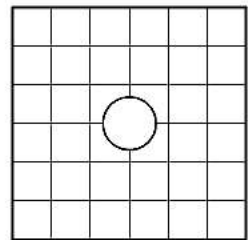

Pattern 6601
(3/8" line spacing)

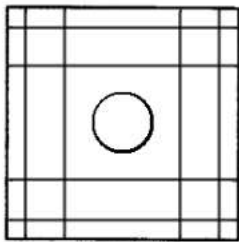

Pattern 6602

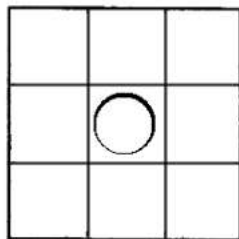

Pattern 6603

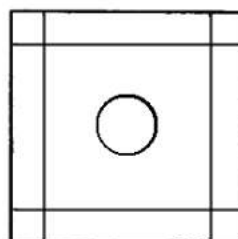

Pattern 6604
(3/8" line spacing)

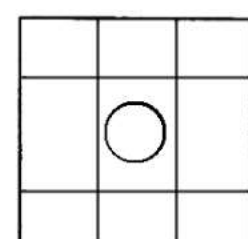

Pattern 6605
